DETAILED ACTION***Election/Restrictions***

1. Applicant's election with traverse of Group VI, and the species wherein R" represents unsubstituted alkyl groups, claims 18-19 and 44-45, in the reply filed on August 12, 2008 is acknowledged. The traversal is on the ground(s) that U.S. Patent No. 5,502,128 does not read on claim 18 and now amended claims 1-6 and 20-28. This is not found persuasive because the disclosure of metal amidinate compounds in the '128 patent make it clear that the corresponding technical feature in the original instant claims is not new.

The requirement is still deemed proper and is therefore made FINAL.

2. Claims 1-6 and 20-28 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on August 12, 2008.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 18, 44, and 45 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The variables R¹", R²" and R³" in the general formula of claim 18 are not defined. Also, the general formula in claim 18 have the variable M", however, the claim defines the variable M rather than M". Please correct.

5. Claim 19 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the

Art Unit: 1621

base claim and any intervening claims. The elected species wherein Rⁿ represents unsubstituted alkyl groups is novel and unobvious over the prior art of record.
